

Google Sheet Plugin Documentation

Introduction

The Google Sheet Plugin allows seamless integration with Google Sheet for sending messages, and automated messages. This documentation will guide you through installation, configuration, and usage.

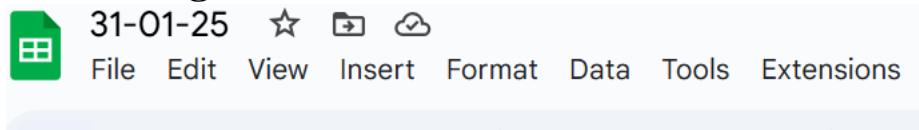

Requirements

Before using this plugin, ensure you have the following:

- **Google Sheet**
- **Login Credentials**(Platform)
- **Approved WhatsApp Message Templates** (For sending pre-approved messages)
- **Server to Server handshake enabled**

Installation

1. **Download the Plugin:** Obtain the plugin files from the official source.
2. **Upload to GoogleSheet:**
 - **Go to GoogleSheet > Click On Extension**

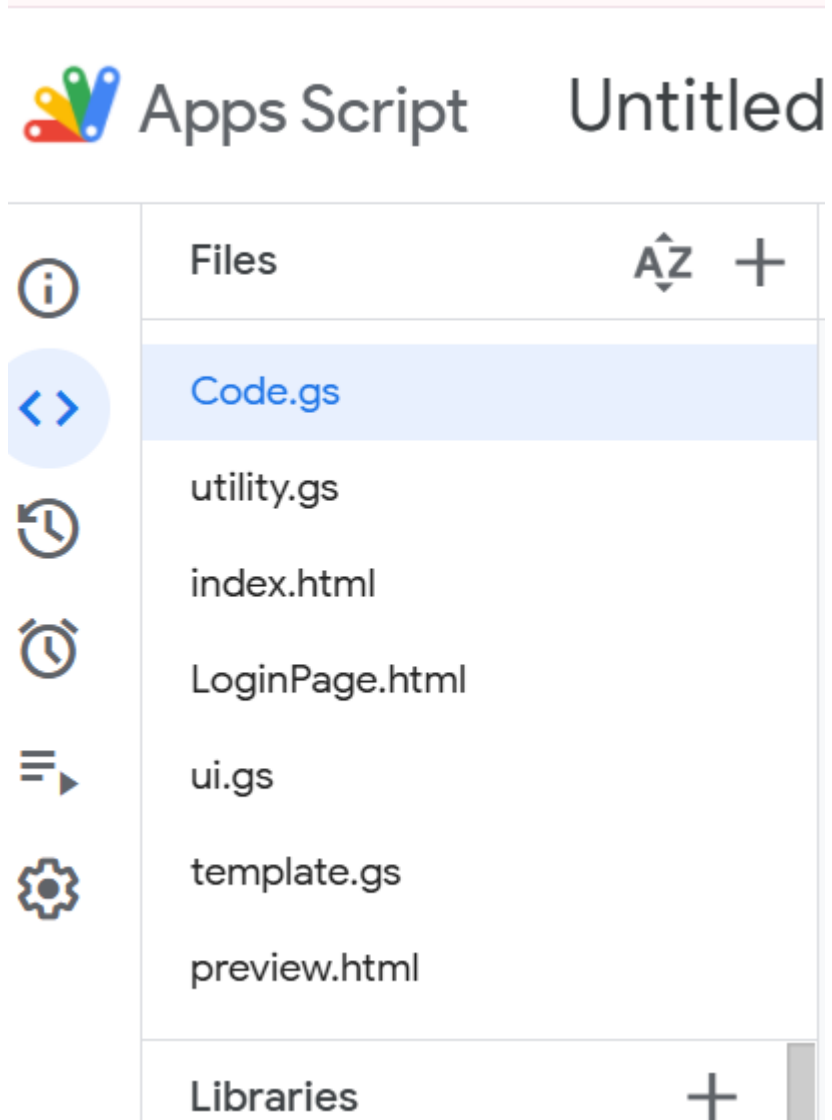

- Click and select the AppScript.

The screenshot shows the Google Sheets interface. The top menu bar includes 'File', 'Edit', 'View', 'Insert', 'Format', 'Data', 'Tools', 'Extensions', 'Help', and 'WhatsApp Sender'. The 'Extensions' menu is open, displaying a list of add-ons: 'Add-ons', 'Macros', 'Apps Script', 'AppSheet', 'Looker Studio' (with a 'New' badge), 'Check Sheet Notifications', and 'MSG91'. The 'Apps Script' option is highlighted. The spreadsheet below has columns A, B, and C, and rows 1 through 15. Row 1 contains the text '917904010456', 'sagar', and 'this' in columns A, B, and C respectively. Row 2 contains '917904010456', 'sir', and 'this'. Row 3 contains '917904010456', 'hi', and 'this'. The formula bar shows '917904010456'.

	A	B	C	
1	917904010456	sagar	this	A20
2	917904010456	sir	this	A20
3	917904010456	hi	this	A20

- Put The code according the name in Zip file.

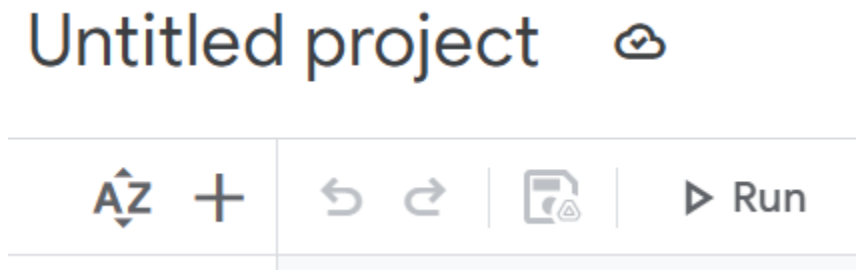

○

>Click On the ui.gs and copy-paste the file contents from the .zip files, repeat this steps for other files as well.

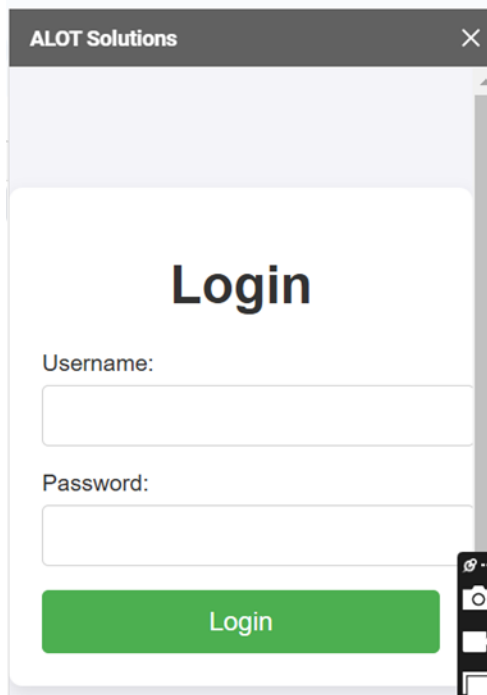

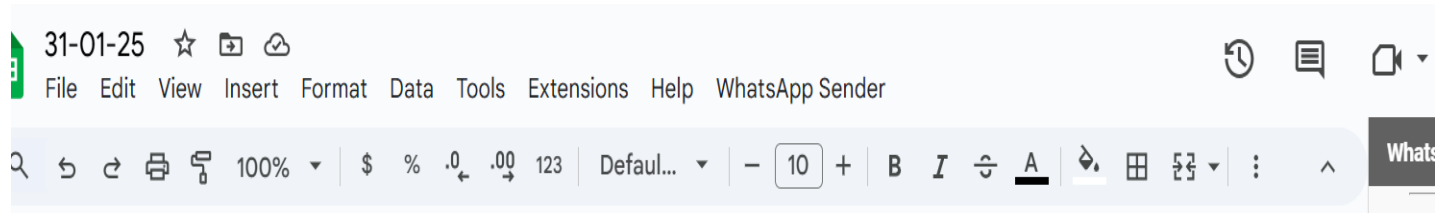

There is a run Button below “Untitled project” click on that and then go to your googleSheet Tab.

Configuration

1. Navigate to Settings

- Go to **Extension**> in the GoogleSheet dashboard. > click on WhatsApp sender > then click Login button.

>**Login** Enter your **Username** and **Password**.

2. **Template Configuration** ○ Select a **Template Category**.

WhatsApp Sender

Channel ID:

919833533311

Select Category:

Select Category

Select Template Name:

Select Template

Contact Range:

Capture Selected Range

Message:

- Choose a **Template** from the available options.

- Select the Range based on the googleSheet column.

The screenshot shows a Google Sheet with columns A through I and rows 1 through 17. The data in the first three rows is as follows:

	A	B	C	D	E	F	G	H	I
1	917904010456	sagar	this	A20	mumbai	chennai			
2	917904010456	sir	this	A20	mumbai	chennai			
3	917904010456	hi	this	A20	kolkata	chennai			
4									
5									
6									
7									
8									
9									
10									
11									
12									
13									
14									
15									
16									
17									

The WhatsApp Sender extension interface is overlaid on the right side of the sheet. It includes the following elements:

- Select Category:** A dropdown menu.
- Select Template Name:** A dropdown menu with the text "Select Template".
- Contact Range:** A text input field containing "A:A".
- Capture Selected Range:** A blue button.
- Message:** A text input field.
- Header:** A text input field.

- Select the Variable based on the template.

A	B	C	D	E	F	G	H	I
917904010456	sagar	this	A20	mumbai	chennai			
917904010456	sir	this	A20	mumbai	chennai			
917904010456	hi	this	A20	kolkata	chennai			

Zoom

WhatsApp Sender

Body

{{1}}

Selected range will appear I

Selected range for 1 is required.

Capture Range 1

{{2}}

Selected range will appear I

Selected range for 2 is required.

Capture Range 2

➤ Select the variables based on the template and send it .

The screenshot shows a Google Sheet with the following data:

A	B	C	D	E	F	G	H	I
917904010456	sagar	this	A20	mumbai	chennai			
917904010456	sir	this	A20	mumbai	chennai			
917904010456	hi	this	A20	kolkata	chennai			

The WhatsApp Sender plugin interface is open on the right, showing a 'Body' section with two message templates. Each template has a placeholder for a range (e.g., {{1}}) and a 'Capture Range' button. The interface also displays error messages: 'Selected range for 1 is required.' and 'Selected range for 2 is required.'

Features

- **Send Automated WhatsApp Messages:** Notifications for orders, support, and updates.
- **Template Management:** Use pre-approved templates for messaging.

GoogleSheet Dependency

This plugin requires **GoogleSheet** For message sending.

Troubleshooting

- Ensure Login credentials are correct.
- Check if the template is approved.
